AUTOMOBILE EXHIBITS

2022 SIZE OF LOSS DISTRIBUTION EXHIBIT PRIVATE PASSENGER EXCLUDING FARMERS ALBERTA

The Size of Loss Distribution Exhibit for Private Passenger Automobile excluding Farmers for Alberta displays Urban and Rural distributions of claims for Accident Years 2018 to 2022 inclusive as of December 31, 2022. Please note that the claim counts for these exhibits have been **generated** from the reported individual claim transactions by applying a matching process.

This exhibit consists of the following three sections:

A. Size of Loss Distribution by Major Coverage

Distribution of claims for the following major coverages: Third Party Liability, Accident Benefits, All Perils, Collision, and Comprehensive. Claim counts are tabulated at the coverage level.

B. Size of Loss Distribution for Third Party Liability by Sub-Coverage

Distribution of claims for Third Party Liability with claim counts tabulated at the Sub-coverage level for Bodily Injury and Property Damage.

C. Size of Loss Distribution for Accident Benefits by Kind of Loss

Distribution of claims for Accident Benefits with claim counts tabulated at the Kind of Loss level.

If you have any questions regarding this exhibit, please contact the staff references below.

TABLEAUX STATISTIQUES AUTOMOBILES

**TABLEAUX DE LA RÉPARTITION DES SINISTRES EN 2022,
EN FONCTION DE LEUR TAILLE
VOITURES DE TOURISME SAUF LES VÉHICULES D'EXPLOITATION AGRICOLE
ALBERTA**

Les tableaux de La Répartition de 2022 des sinistres selon l'importance des pertes quant aux voitures de tourisme sauf les véhicules d'exploitation agricole de l'Alberta, illustre des répartitions urbaines et rurales des sinistres pour les années de survenance 2018 à 2022 inclusivement au 31 décembre 2022. Veuillez noter que les divers nombres de sinistres de ce tableau ont été **générés** à partir des opérations de sinistres individuels déclarées après application d'un processus de concordance.

Ces tableaux été formé des trois rapports suivants :

A. Répartition de l'importance des pertes par garantie majeure

Répartition des sinistres quant aux garanties majeures suivantes : RC, Indemnités d'accident, Tous risques, Collision et Accidents sans collision ni versement. Le nombre de sinistres est tabulé au niveau des garanties.

B. Répartition de l'importance des pertes en RC par sous-garantie

Répartition des sinistres en Dommages corporels et Dommages matériels. Le nombre de sinistres est tabulé au niveau des sous-garanties.

C. Répartition de l'importance des pertes en Indemnités d'accident par genre de sinistre

Répartition des sinistres quant aux Indemnités d'accident avec tabulation des divers nombres de sinistres au niveau du genre de sinistre.

Si vous avez des questions à propos de ces tableaux, contacter une des personnes-ressources mentionnées ci-dessous.

Notes to Users

1. **The 2022 Automobile Insurance Exhibit Introduction, AUTO1003-AB, distributed with Bulletin No: 2023-38 dated July 17, 2023, should be used in conjunction with this exhibit. The module provides a brief explanation and outline of the contents included in this Exhibit.**
2. **Effective January 1, 2022, the ASP has been changed for Alberta to capture new Coverage codes to reflect the split of Third Party Liability (TPL) coverage between Bodily Injury (BI), Property Damage Liability (PD) and Direct Compensation Property Damage (DCPD). The data reported under the new coverage codes is included in the CSV.**
3. Starting with Exhibit Year 2012, the Size of Loss Exhibit has been produced from EPS and required utilization of new data processing methodologies. The changes in the methodology are summarized below.
 - a. Deriving the “generated” Claim count using various reported Claim attributes (**refer to APPENDIX A**), but not the Claim Identification Field that was used in prior years’ Exhibits.
 - b. Different definition of the “Other Deductibles”. In the past, this was the sum of the Deductibles not displayed, whereas in EPS they are the “Non-Standard” Deductibles.
 - c. Displaying Claims in large Size of Loss ranges for Physical Damage coverages. These Claims were excluded in the past.
 - d. Displaying the data for the LESS THAN \$0 RANGE (negative Pure Loss Amount). In the past, the negative Pure Loss Amounts were distributed proportionally across all ranges.
4. Claims are assigned to exhibit ranges using Pure Loss Amount only.
5. All Loss information is as reported, that is, no loss development factors have been applied.
6. Some data exclusions have been applied in order to eliminate major distortions. In some instances, Claims with high Expense Amounts only have been removed as they significantly distorted the EXPENSE AMOUNT and LOSS AMOUNT and EXPENSE AMOUNT distributions.

Users are advised to exercise caution when using this data.

7. The Claim counts generated at the Sub-coverage and at the Kind Of Loss level will not balance with the counts generated at the Coverage level.

For example, an Accident Benefits occurrence would result in a Claim count of one being generated at a Coverage level but could generate multiple Claim counts at a Kind Of Loss level i.e. one for Disability Income and one for Medical. A similar situation can also occur when comparing the Liability Claim counts at the Coverage level and at the Sub-coverage level.

8. The Claim counts are generated by a matching process on individual Claim transactions. This process creates some Claim counts in the Exhibit with Pure Loss Amounts outside reasonable ranges. It also generates Claim counts that are somewhat out of balance with reported Claim counts when aggregated at the Kind of Loss level.
9. \$0 range of Pure Loss Amount is added to the Exhibit to capture information with respect to Claims closed without payment but with Allocated Loss Adjustment Expense payments.
10. **Users are advised to exercise caution when reviewing this Exhibit and that appropriate adjustments be made to the data for ratemaking purposes.**

Claim Count Generation

For the purposes of determining Size of Loss, Claim Counts are “generated” using a combination of the following reported fields:

1. Company Identification
2. Policy identification
3. Policy Effective Date
4. Vehicle Code
5. Vehicle Model Year
6. Statistical Territory
7. Vehicle Location Postal Code (FSA)
8. Type of Business
9. Type of Use
10. Vehicle Use
11. Trailer Indicator
12. Group Marketing Indicator
13. Grid Indicator (for Alberta only)
14. First Chance Indicator (for New Brunswick only)
15. Accident Date
16. Driving Record
17. Operator Grid Level (for Alberta only)
18. Deductible
19. Major Coverage ¹
20. TPL Sub-coverage ²
21. Limit Amount
22. Kind of Loss

Size of Loss by Major coverage use fields 1 – 19

Size of Loss by TPL Sub-coverage use fields 1 - 21

Size of Loss by Kind of Loss use fields 1 - 22

¹ TPL, AB, COLL, AP, COMP, SP

² **Bodily Injury: Claim Coverage code = 62 or 10 AND Kind of Loss 01,02,03,04,05,06**

Property Damage inc. Direct Compensation: Claim Coverage code = 62 or 11, 12 AND Kind of Loss 09, 12, 14 - 18

Remarques à l'intention des utilisateurs

1. **L'Introduction au Tableau d'assurance automobile 2022, AUTO1003-AB, diffusé avec le Bulletin bulletin n° 2023-38 du 17 juillet 2023, devrait être utilisée conjointement avec ce tableau. Le module donne une brève explication et souligne le contenu de ce tableau.**
2. **À compter du 1 janvier 2022, le PSA a été modifié pour l'Alberta afin de saisir de nouveaux codes de garantie pour refléter la répartition de la garantie Responsabilité civile (RC) entre Responsabilité civile – Dommages corporels (DC), Responsabilité civile - Dommages matériels (DM) et l'Indemnisation directe dommages matériels (IDDM). Les données déclarées sous les nouveaux codes de garantie sont incluses dans le fichier CSV.**
3. À compter du Tableau de année 2012, le tableau sur la Taille des sinistres a été produit à partir du SPT et exigeait l'utilisation de nouvelles méthodes de traitement des données. Les changements de méthodologie sont résumés ci-dessous.
 - a. Le nombre dérivé de sinistres est « créé » en utilisant divers attributs des sinistres déclarés (**voir l'Annexe A**), mais pas le champ Identification du sinistre qui a été utilisé dans les tableaux des années précédentes.
 - b. Une définition différente du terme « Autres franchises ». Dans le passé, il s'agissait de la somme des franchises non affichées, alors que dans le SPT elles sont inscrites comme franchises « variables ».
 - c. Affichage des sinistres selon les intervalles de taille de sinistre important pour les garanties Dommages matériels. Dans le passé, ces sinistres étaient exclus.
 - d. Affichage des données pour les sinistres de l'intervalle MOINS DE 0 \$ (Montant de sinistre pur négatif). Dans le passé, les montants de sinistre pur négatifs étaient distribués proportionnellement parmi tous les intervalles.
4. Les sinistres sont assignés à des intervalles de tableau en utilisant uniquement le Montant de sinistre pur.
5. Tous les renseignements sur le sinistre sont tels qu'ils ont été déclarés, aucun coefficient d'évaluation des sinistres n'a été imputé.
6. Certaines exclusions de données ont été appliquées afin d'éliminer des distorsions importantes. Dans certains cas, les sinistres dont les frais sont plus élevés ont été retirés puisqu'ils donnaient une fausse représentation du MONTANT DES FRAIS et du MONTANT DE SINISTRE et de la distribution du MONTANT DES FRAIS.

Nous demandons aux utilisateurs de faire preuve de prudence lorsqu'ils utilisent ces données.

7. Le Nombre de sinistres créé au niveau de la Sous-garantie et du Genre de sinistre ne correspond pas aux nombres issus au niveau de la Garantie.

Par exemple, une incidence d'Indemnités d'accident entraînerait un Nombre de sinistres de « un » au niveau de la Garantie, mais pourrait créer un nombre multiple de sinistre au niveau Genre de sinistre, par exemple, « un » pour les Prestations d'invalidité, « un » pour les Frais médicaux. Une situation semblable peut également se produire lorsqu'on compare le nombre de sinistres de Responsabilité civile au niveau de la Garantie et au niveau de la Sous-garantie.

8. Le Nombre de sinistres est créé grâce à un processus de correspondance des transactions de sinistre individuelles. Ce processus crée un Nombre de sinistres dans le Tableau avec des Montants de sinistre pur à l'extérieur des intervalles raisonnables. Il crée également un Nombre de sinistres qui ne correspond pas au Nombre de sinistres déclarés lorsqu'on fait le total au niveau du Genre de sinistre.
9. L'intervalle 0 \$ de Montant de sinistre pur a été ajouté au Tableau pour saisir les renseignements concernant les Sinistres fermés non réglés mais qui ont des paiements de Frais de rajustement de sinistre imputés.
10. **Les utilisateurs devraient faire preuve de prudence lorsqu'ils examinent ce Tableau et les rajustements appropriés sont effectués aux données aux fins de tarification.**

Création du Nombre de sinistres

Aux fins d'établir la Taille du sinistre, le Nombre de sinistres est créé en utilisant une combinaison des champs déclarés suivants :

1. Identification de l'assureur
2. Identification du contrat
3. Date d'effet du contrat
4. Code de véhicule
5. Année-modèle du véhicule
6. Territoire statistique
7. Code postal du lieu de garage du véhicule (RTA)
8. Genre d'activité
9. Genre d'utilisation
10. Usage de véhicule
11. Indicateur de remorque
12. Indicateur de marketing de groupe
13. Indicateur de barème (pour l'Alberta seulement)
14. Indicateur de rabais de la première chance (pour le Nouveau-Brunswick seulement)
15. Date de l'accident
16. Dossier de conduite
17. Niveau de barème du conducteur (pour l'Alberta seulement)
18. Franchise
19. Garantie importante ³
20. Sous-garantie Responsabilité civile ⁴
21. Plafond de garantie
22. Genre de sinistre

Taille de sinistre par Garantie importante, utiliser les champs 1 à 19

Taille de sinistre par Sous-garantie RC, utiliser les champs 1 à 21

Taille de sinistre par Genre de sinistre, utiliser les champs 1 à 22

³ RC, IA, COLLISION, SANS COLLISION NI VERSEMENT, TOUS RISQUES, RISQUES SPÉCIFIÉS

⁴ **Blessures corporelles : Code de garantie de sinistre = 62 ou 10 ET Genre de sinistre 01, 02, 03, 04, 05, 06**
Dommages matériels inc. Indemnisation directe : Code de garantie de sinistre = 62 ou 11,12 ET Genre de sinistre 09, 12, 14-18

**BY MAJOR COVERAGES
PAR GARANTIES MAJEURES**
